

PeaQ Advisors ('PeaQ') reaches the two-years' milestone

With two full years of operations under its belt, PeaQ has established itself in the asset management sector in Mauritius. PeaQ's Managing Director, **André Chung Shui**, stated: "We are proud to have achieved this milestone and are very grateful to our clients for their support. We are on target as far as our business plan is concerned. I would like to acknowledge the contribution and support of our team members."

Ishrat Cheeroo, Senior Investment Manager, added: "These two years have proved to be a very interesting challenge. It was gratifying to find ways to meet our clients' investment needs, especially in this volatile market environment. We thank them for their trust and for embarking on this journey with us."

With the onslaught of inflation on a worldwide basis during that time, **Michael Yap**, Senior Investment Manager mentioned: "Markets have been rattled by bank failures in the US and Europe amid aggressive rate hikes by central banks to tame inflation. However, a resilient US economy along with investment opportunities in certain segments such as semiconductors and AI have buoyed the stock markets."

In terms of future objectives, PeaQ will continue to focus on its core values and deliver quality service to all its clients.
